Framework	: React.js , Express.js , Numpy , Matplotlib
Design	: UI UX
Database	: MongoDB
Tools/Technologies	: Git , GitHub , VS code , Figma

## Certifications

---

Front-End Development- Html & CSS certified by Great Learning.

Python Programming by Motion Cut Crafting Futures Pvt ltd

JavaScript for Web Development Certified by Insight tech hub Pvt Ltd.

## Internship

---

Javascript - Insight Tech hub Pvt ltd

Assisted in building interactive and dynamic web applications using JavaScript.

- Developed and maintained user interface components using vanilla JavaScript and modern frameworks.
- Implemented event-driven functionality and DOM manipulation for dynamic page behavior.
- Gained experience in debugging, code optimization, and version control using Git.

## Internship

---

### Python Programming - Motion Cut Crafting Futures Pvt Ltd

Assisted in developing, testing, and maintaining Python-based applications and scripts.

- Worked on real-world projects involving data processing, automation, and backend scripting.
- Utilized libraries such as pandas, numpy, and requests for data manipulation and API integration.

## Project

---

### Daily Posts (Offline)

Tech Stack: React.js, HTML, CSS

Developed a fully functional personal posting web application using React.js. The platform allows users to create, edit, delete, and search posts. Utilized core React features including hooks and Fetch API for dynamic data handling. This project showcases proficiency in building SPA (Single Page Applications) and managing component state effectively.
